

# **CADON LLV**

## Fully-Synthetic-Ultra-High-Performance Fuel Economy Motoroil 0W-20

#### **Description:**

CADON LLV is a fully synthetic ultra- high performance fuel economy engine oil for passenger cars' gasoline and diesel engines with and without turbo chargers in passenger cars and transporters, especially out of the Volkswagen group. CADON LLV was especially designed to reduce fuel consumption and exhaust emission. Additionally the CO<sup>2</sup> emission could be reduced significantly.

This engine oil is not backwards compatible with VW 504.00/ 507.00 or other VW specifications.

#### Characteristics

- Highest wear protection
- Excellent viscosity temperature behaviour
- Quick oil feed of critical lubricating points
- Significant wear reduction on the cylinder, camshaft, plain bearings and piston rings
- High oxidation and temperature stability
- Low volatilization loss
- Very high cleaning capability
- Particularly low emission combustion

#### Usable for

SAE	0W-20		
API	SN Plus		
ACEA	C5		
We recommend this	product for:		
FORD	WSS-M2C 956-A1		
PORSCHE	C20		
VW	508.00/509.00		
VW	TL 52577		

## Effects

- Reduces fuel consumption at full and partial loading
- Excellent cold starting properties rapid supply of all points of lubrication
- Reduction of CO<sup>2</sup> and exhaust emissions Optimal engine cleanliness
- High performance reserves and high product stability, even at longest oil change intervals
- All-year operation

### Utilization

- New VW four-stroke petrol engines with WIV systems
- with multivalve technology
- with turbo charging
- with catalyst technology
- with extended oil change interval
- New VW passenger car diesel engines with WIV systems
- with pump and nozzle engines
- with diesel particle systems(DPF)
- with CDi-technology
- with turbo charging
- with multivalve-technology
- with catalyst technology
- This motor oil is not backward compatible.

#### **Disposal:**

CADON LLV is assigned to category 2 of used oils and thus is free for disposal.

**Miscibility:** 

CADON LLV is fully compatible with conventional HD oils and can be mixed if necessary. In orderable to fully utilise the advantages of CADON LLV, however, the use of CADON LLV is worth recommending.

CADON LLV			Typical characteristics:		
Article No.	Packaging unit		Specific weight at 15°C	kg/m³	836
STL 1090 402	Can	1 L	Dynamic viscosity at -	mPa.s	3980
STL 1090 403	Can	4 L	35°C(CCS)	21	0.1
STL 1090 404	Can	5 L	Viscosity at 100°C	mm <sup>2</sup> /s	8,1
STL 1090 405	Can	20 L	Flash point COC	°C	234
STL 1090 406	Drum	60 L	Pourpoint	°C	-54
STL 1090 408	Drum	200 L	TBN	mgKOH/g	8,0
STL 1490 409	PE-Container	1000 L			

Data are subject to change. Attention: Service instructions should be observed! STL/MO/PKW/-01/2024
